

THE LANDSCAPE OF FLORIDA

C F
The landscape of Florida, fills our hearts with delight
G F G C
With flashes of lightning, its a katydid night
C F
The tide rolls in, a seagull takes flight
G F G C
The sun paints the sky, into rainbows of light

CHORUS:

Am G
Florida, Oh Florida
F G
We love our people and the salt sprayed air
Am G
Florida, Oh Florida
F G C
Calling us all, to treat her with care
(Ending: Repeat chorus twice, then repeat last line twice.)

Apalachee and Seminoles, all lived, loved and played

We hear their songs, in the hills and on the bays

A whisper so soft, can you hear what they say?

Wondering why, we live in this way CHORUS

Long Leaf Pine forests, almost gone from here

Of sand pines and sand dunes, the land is soon clear

I wonder if, we'll ever not fear

And live with the panther, the bear and the deer CHORUS
