G C F G C G C  
so glad to be a live

My feet caress the land each day, dolphins know my name  
I hug the trees and kiss the squirrels; each day's not the same  
I play with bears, I eat the clouds, everyone's my friend  
I listen to the purple martins, soaring over land Chorus

Loving our planet earth, I dance so joyously  
Her rivers glide across my skin, I breathe deliciously  
Her soils grow the largest oaks; the birds are wild and free  
Everywhere that I do roam, my heart laughs gratefully Chorus
