

TREES (CAPO UP TWO FRETS Key of A)

G Em C D
Are trees for climbing, getting to the top
C G Em Am D
Gazing at horizons and wondering when they stop?
C G Em D
If trees are for climbing, for squirrels, bears and bugs
C G C D G
We'll circle all around for a great big hug

CHORUS:

C G C G
Sycamore and white oak, mahogany and spruce
Em Bm C D
You're the greatest link between heaven and earth
C G Em D
Sunshine to sugar, sugar in our blood
C Bm C D G
Trees tell the story of giving and of love

Are tree for eating, oranges and pears

Mangos and persimmons and cherries trees do share?

If trees are for eating, then we ought to say

Thank you trees for such a delicious day! CHORUS

Are trees for building the heartwood straight and true

Lumber, logs and plywood; the boards smell fresh and new?

If trees are for building, guitars and homes and chairs

Can we treasure trees and cherish all they bare! CHORUS

Are trees for oxygen, from water and chlorophyll

Inhale carbon dioxide from every swamp and hill?

If trees are for breathing our lives depend on them

Isn't it time to make trees our friends? CHORUS
